DETAILED ACTION

Election/Restrictions

A telephone call was made to Jeffrey L. Myers on 9/27/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- (A) Claims 1-28 disclose an e-commerce based method for requesting information and purchasing products from a dealer through a manufacturer, wherein consumer personalized data information is selected from the group consisting of weather, investments, stock portfolio, news and links, classified in 705/26.
- (B) <u>Claims 29-32</u> disclose an e-commerce based method for providing a systemization of machine parts to a consumer, said method comprising selecting a system of machine parts from at least two available systems, classified in 705/26.

Inventions (B) and (A) are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention as defined by

Art Unit: 3625

Group (B) has separate utility as defined by Group (A). For example, Group (B) claims an e-commerce based method for providing a systemization of machine parts to a consumer. See MPEP § 806.05(d). The limitations claimed in Group (B) are not linked or related to those limitations disclosed in Group (A).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew Gart whose telephone number is 703 305 5355. The examiner can normally be reached on 8:30 am - 5:30 pm Mon.- Fri..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wynn Coggins can be reached on 703 308 1344. The fax phone numbers for the organization where this application or proceeding is assigned are 703 305 7687 for regular communications and 703 305 7687 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703 308 1113.
